Languages: Python(Pandas,Numpy,matplotlib, Java, C, HTML/CSS, JavaScript, Firebase
Developer Tools: VS Code, Git, Google Cloud Platform, Jupyter Notebook,
Technologies/Frameworks: Data Structures and Algorithms, ReactJS, NodeJs, MongoDb, ExpressJs, Three.Js, Tailwind, Bootstrap, Linux, GitHub, API, WordPress, PostgreSQL, Postman

Projects

Gemini-Clone | *ReactJs, Vite, Google Gemini API, CSS, Javascript* | **April 2024**

- ∗ Developed a Gemini-inspired website with features mirroring Gemini's content discovery capabilities, offering summarized content for users.
- ∗ Seamlessly integrated React.js, JavaScript, Vite, and CSS, connected to the Google Gemini API, providing personalized recommendations, image recognition, and content generation, benefiting a wide user base including content creators, consumers, and businesses.

EduQuestAR | *Javascript, ReactJs, ThreeJs, Netlify* | **November 2023 - December 2023**

- ∗ Pioneering the development and launch of an innovative AR learning platform tailored for children, seamlessly integrating augmented reality. This initiative elevated education for 40% of junior students through AR integration.
- ∗ Orchestrated a compelling promotional website, significantly boosting visibility and driving a remarkable 20% increase in creativity and curiosity.
- ∗ Energized initiatives resulted in a remarkable 30% increase in user engagement and retention, concurrently driving a notable 25% acceleration in the learning process.

Voyage | *Javascript, ReactJs, NodeJS, Mongodb* | **September 2023 - October 2023**

- ∗ Championed a groundbreaking website to tackle monument and museum ticketing challenges, curbing payment fraud and safeguarding 27% of Indians.
- ∗ Engineered a standardized booking platform, ensuring real-time availability and reducing identity theft during online bookings, benefiting 36% of users.
- ∗ Forged strategic alliances with premier tourist spots, museums, and attractions, enriching experiences.

Achievements/Certificates

Innotech'23

- Secured victory in the prestigious inter-college technical exhibition, surpassing 100+ participating teams and emerging as the winner among 50+ top-tier teams.

Hackathons

- Excelled in over 10 hackathons, distinguishing myself among 500+ competing teams and consistently securing commendable top 10 positions..
- **Certificates -** HTM'4.O, hackCBS'6.O, Web3 Builder

Position of Responsibility

Technocrats Club | **November 2023 - Present**
Web Coordinator

- Mentored juniors in frontend development, supported their projects, and led a 100+ student team, achieving an 80% increase in project completion rates.
- Organized 3+ technical events with 300+ participants, collaborating with a team of 60+ for smooth execution.
